<input checked="" type="checkbox"/>	Pages	3	Allows Gallery admins to create static pages.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/>	Pages_extra	1	A search engine optimized version of the module 'Pages' by rWatcher. Allows Gallery admins to create static pages, add metadescription & metatags, and optionally include pages in an XML Sitemap. Admins MUST manually add a line of code to their theme's page.html.php file; Go to README_IMPORTANT.TXT for instructions. (Note: An XML sitemap which includes both Static and Gallery pages requires Sitemap_extra Module to be installed, instead of Sitemap module.)	
<input type="checkbox"/>	Panorama	1	View panoramas with an interactive viewer (forked from fspp's pan0)	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/>	Photo Annotation		Allows you to assign tags and notes to areas on your photos. This module is partially compatible with the TagFaces module by rWatcher. This means that notes and faces that you create in either one will be shown and are editable by the other module as well. If you added users to an annotation area though they will only be displayed with the Photo Annotation module. You cannot run both modules at the same time.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/>	PHPMailer		Use PHPMailer when sending email messages. Use 'composer install' to install phpmailer	
<input type="checkbox"/>	Polar Rose		Integrate Gallery with the Polar Rose facial recognition service.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/>	reCAPTCHA		reCAPTCHA displays a graphical verification that protects the input form from abuse from 'bots,' or automated programs usually written to generate spam ( <a href="http://recaptcha.net">http://recaptcha.net</a> ).	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/>	REST API Module		A REST-based API that allows desktop clients and other apps to interact with Gallery 3	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input checked="" type="checkbox"/>	RSS	1	Provides RSS feeds	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/>	rWInfo	3	Display extra information about photos and albums	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input checked="" type="checkbox"/>	Search	1	Allows users to search their Gallery	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/>				

	Server Add	4	Allows authorized users to load images directly from your web server	<input type="checkbox"/>
<input type="checkbox"/>	Session Explorer		Explore the sessions currently active in your Gallery	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Short Search Fix	2	Allows 2-3 letter searches to be performed without requiring SQL system variable modification (useful for shared hosting).	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Tag Albums	4	Creates dynamic albums based on tags.	<input type="checkbox"/>
<input type="checkbox"/>	Tag Cloud HTML5		HTML5-compliant tag cloud. Functions as non-Flash replacements for both 'tag_cloud' and 'tag_cloud_page' modules, with some extra features added.	<input type="checkbox"/>
<input type="checkbox"/>	Tag Cloud Page	1	Displays a tag cloud of all tags used in the Gallery on a seperate page.	<input type="checkbox"/>
<input type="checkbox"/>	TagFaces		Assign tags and notes to a region of a photo.	<input type="checkbox"/>
<input type="checkbox"/>	Tag It		Present an untagged photo and ask the user to tag it.	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Tags	3	Allows users to tag photos and albums	<input type="checkbox"/>
<input type="checkbox"/>	Tags In Album		Creates a sidebar block to display tags used by photos and videos in the current album.	<input type="checkbox"/>
